FIBREGLASS HAMMER HANDLE

Shatter Proof Replacement Handle

FOX UK

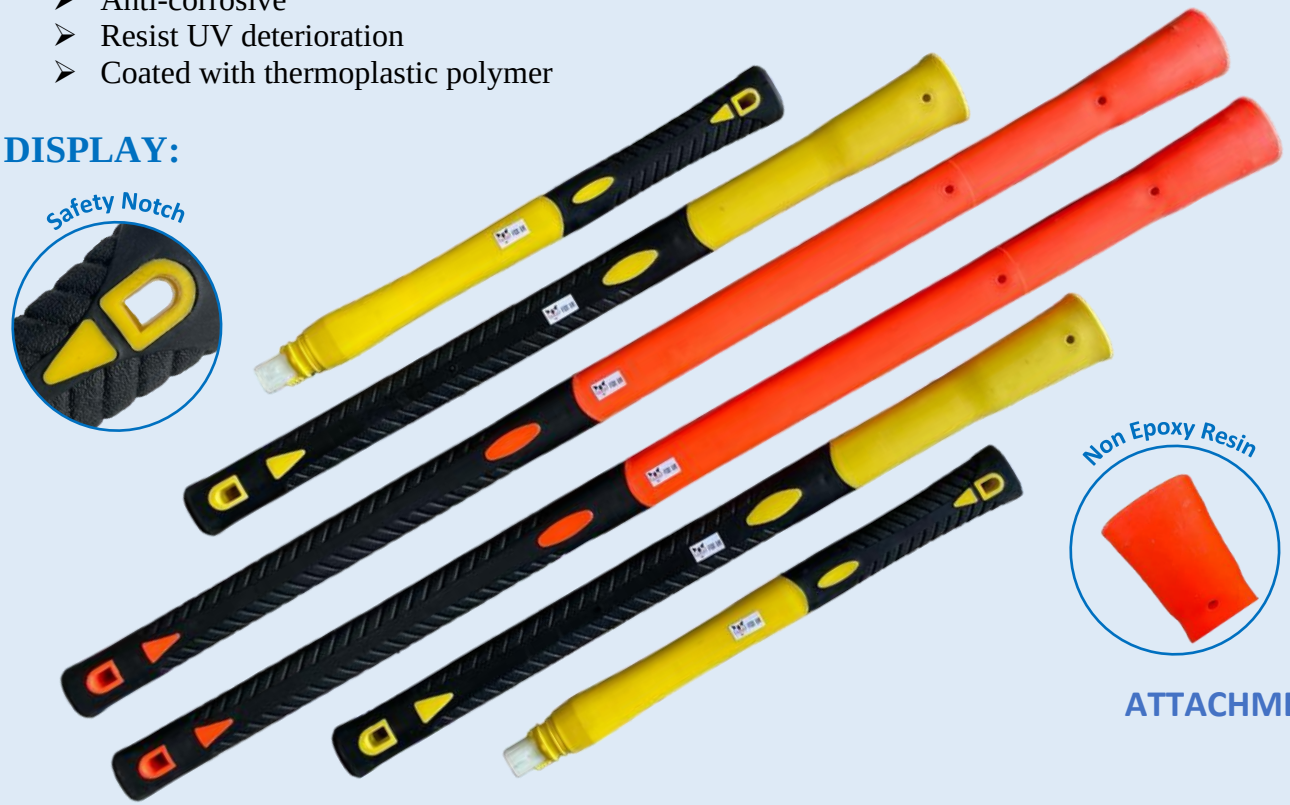

SCOPE:

The handle is made of fiberglass (Glass-Fiber-Reinforced Thermosetting Resin), with high mechanical strength (10 times stronger than wood) and resistant to the effects of oils, gasoline and solvents. Shatter proof Fiberglass handle that improves grip and helps reduce vibration.

KEY FEATURES:

- Stronger than wood
- Precision balanced
- Shatter resistant
- **Slip Resistant** Thermoplastic rubber (TPR) handle with high grip.
- **Shock-absorbent** Fiberglass hammer handles have a hollow core, which is designed to provide better balance and more effective shock absorption than other solid core hammers.
- **Dielectric** Excellent dielectric properties that make them safe to use even in wet conditions.
- More resilient to changing temperatures and weather conditions.
- Anti-corrosive
- Resist UV deterioration
- Coated with thermoplastic polymer
